Jon,

attached is the SAP/CSM for the West County Road 112 site. Comments on the plans are due by Wednesday, Nov. 10th. The initial sampling of private wells is the week of November 29th. Well installation to identify the source area and leading edge may begin in December based on rig availability. Samples of pecans from properties with highly contaminated wells will also be collected for analysis. I'm thinking we may also want to advance the schedule for soil sampling at residential properties with high concentration wells in order to assess secondary contamination of the soil from watering the lawn, gardens, trees, etc. Please let me know if you have any questions. Thanks.

Vincent Malott, P.G.

Subject: Submittal of Sampling & Analysis Plan (Rev 00) - West County Road 112 Ground Water Plume Site (Task Order 0065-RICO-A6R6)

EA Engineering, Science, and Technology, Inc. (EA) is transmitting the electronic PDF version (via e-mail) of the Sampling and Analysis Plan (SAP) (Revision 00) associated with the West County Road 112 Ground Water Plume Site (Task Order 0065-RICO-A6R6).

EA will also deliver one original hard copy and two electronic copies (on compact disc [CD]) of the SAP to the EPA mailroom on Thursday, 28 October 2010.

In addition, two hard copies and one electronic copy (on CD) of the SAP are being shipped to the attention of Ms. Danielle Sattman, Texas Commission on Environmental Quality.

Please contact me if you have any questions regarding this submittal.

Thank You,
April
